1,500 HOMES.
ONE JOURNEY.

How we took Robi WiFi from zero to a 1,500-customer milestone across Chandpur & Lakshmipur — in 11 months.

AUG 2025 — JUN 2026

A FIELD STORY → SWIPE

AUGUST 2025.
ZERO CUSTOMERS.

A brand-new product. A market that had never heard of it.

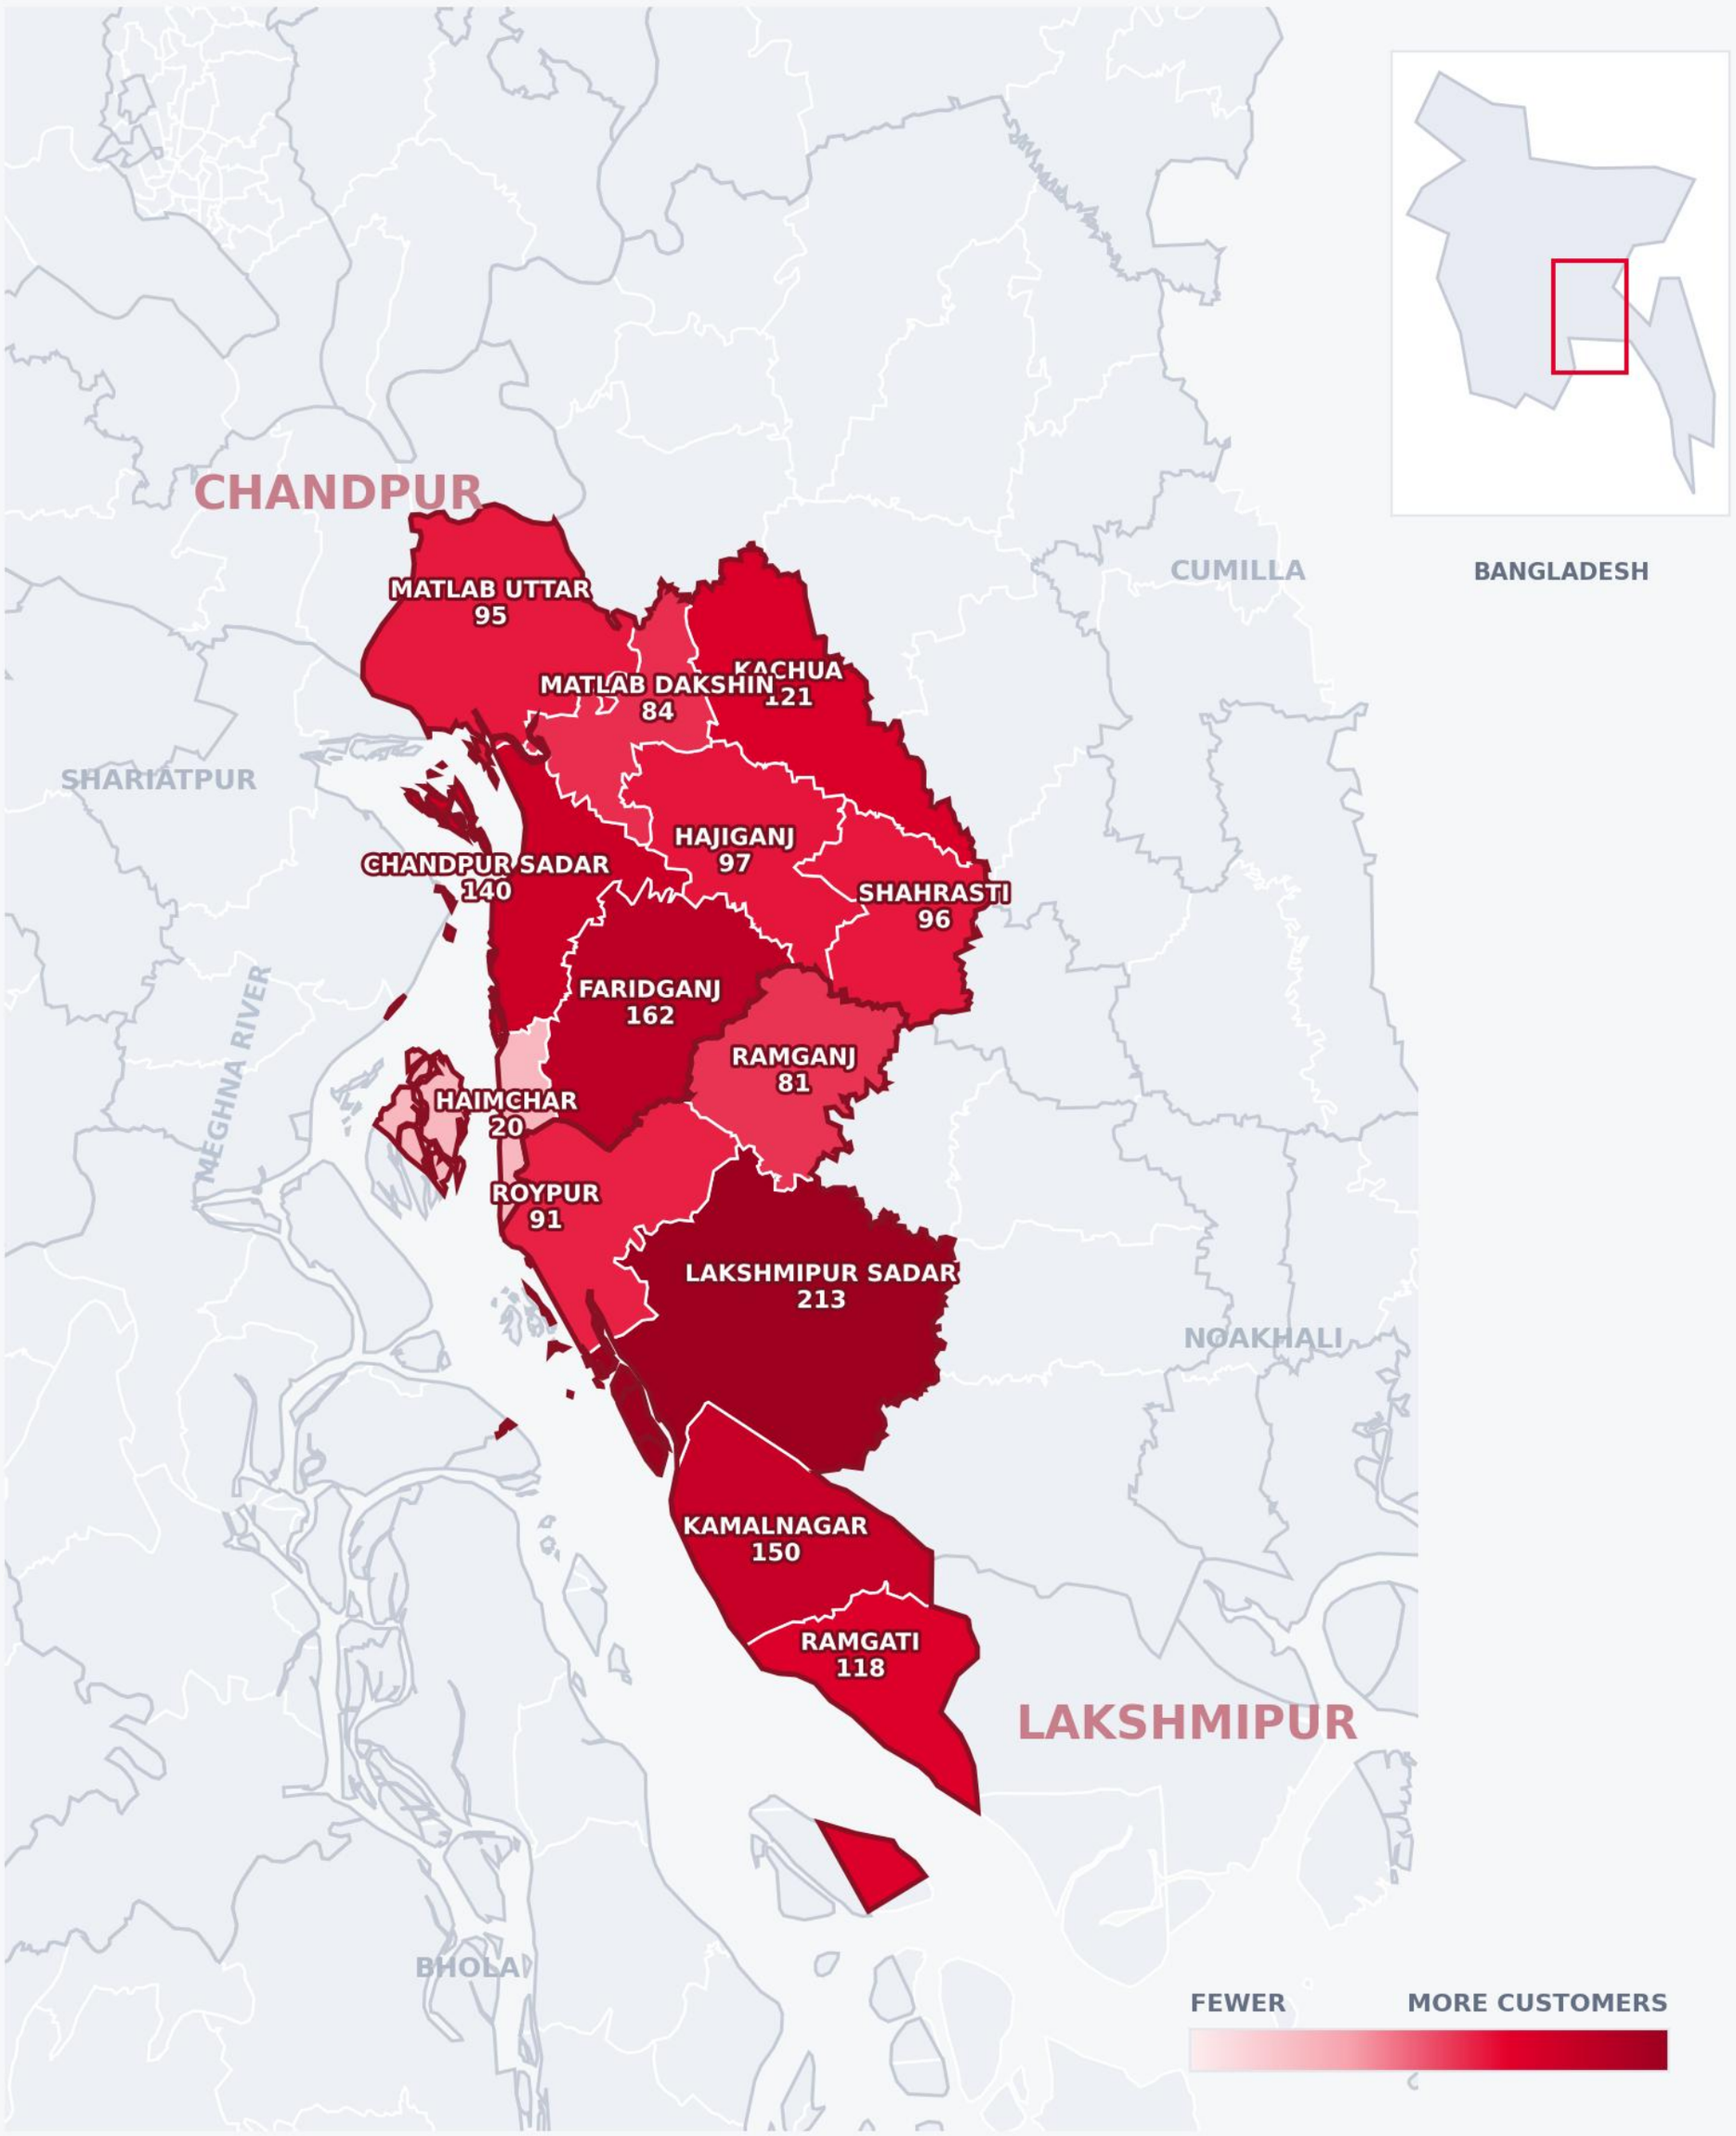

One question kept us going:

"Can we sell WiFi, door to door, in Chandpur & Lakshmipur?"

No playbook. No shortcuts. Just haat-bazaars, umbrellas, leaflets — and a team that refused to quit.

1,500 CONNECTIONS.
EVERY SHADE TELLS IT.

Thana-wise Robi WiFi customer density — deeper red, deeper reach.

RETAIL PARTNER VISITS

EVERY SEASON, EVERY PARA

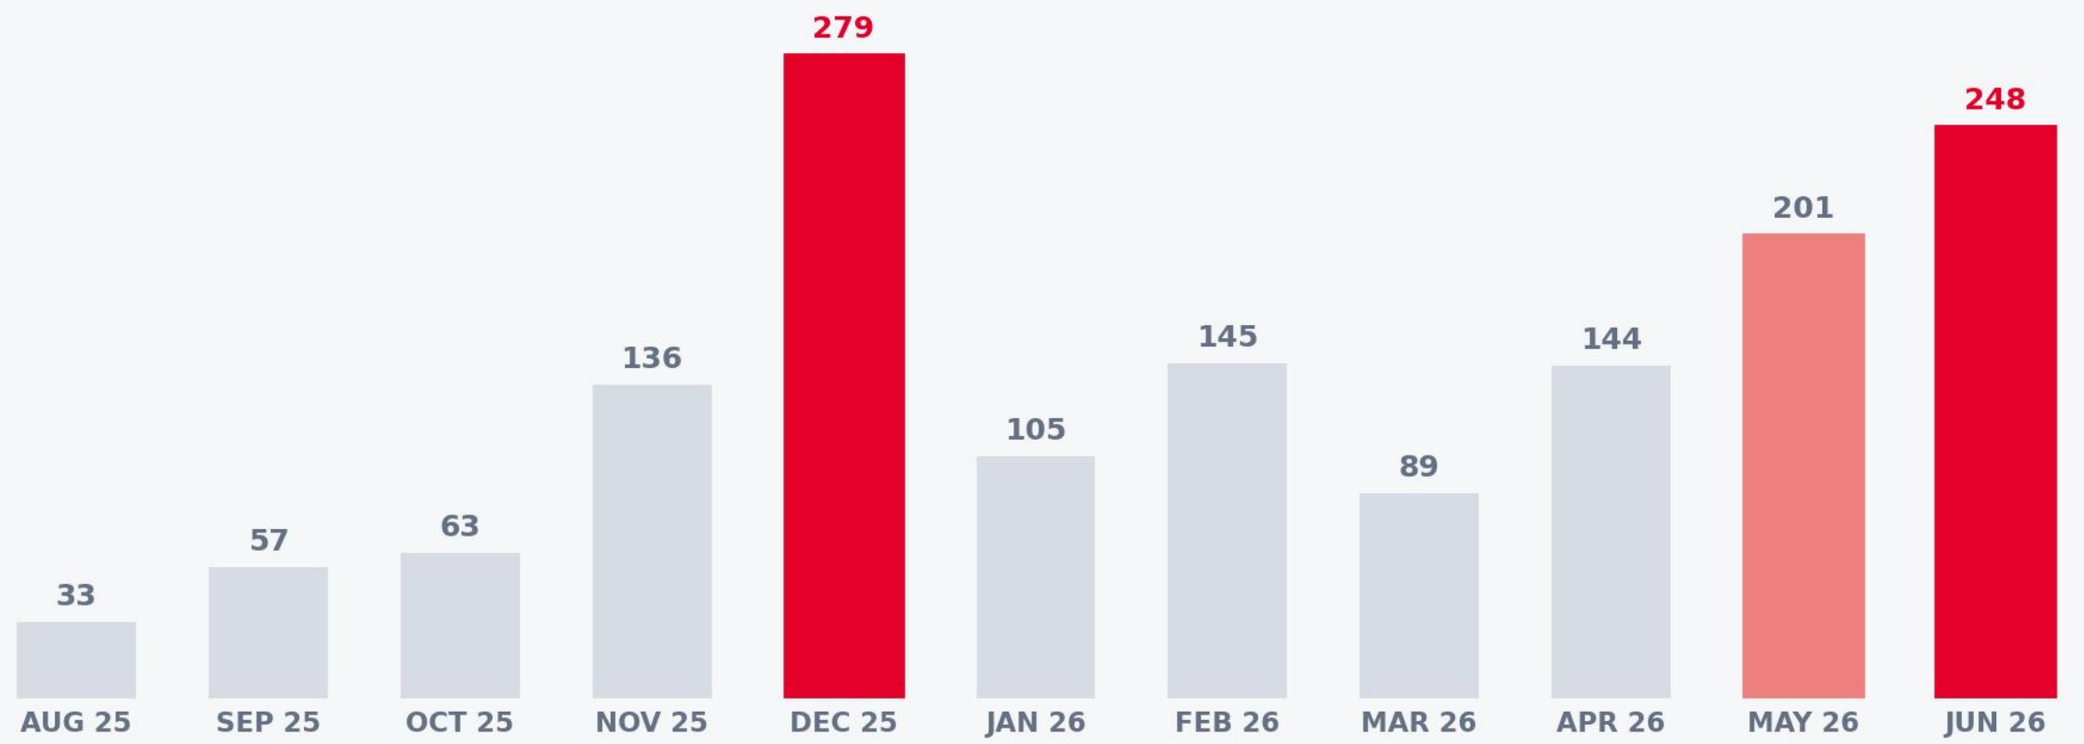

Customer education was the hardest part — most families had never owned a router before. We taught, installed, and stayed.

FROM 33 TO 1,500 — MONTH BY MONTH.

Cumulative customers (top) and new activations (bottom).

NEW ACTIVATIONS PER MONTH

1,500 HANDOVERS.
1,500 STORIES.

Homes, shops, night deliveries — every single one mattered.

AT THE BAZAAR

A student streaming classes. A shop going digital. A family's first broadband. That's what every box in these photos means.

NONE OF THIS HAPPENS ALONE.

3 THINGS THIS JOURNEY TAUGHT ME.

01 New products are sold on trust, not specs.

In semi-urban markets, customers buy from people they believe. Every installation done right became our best advertisement.

02 Momentum compounds when the channel believes.

Our breakthrough December (+279) came after months of retailer training and RSSP engagement — not from a single campaign.

03 The best growth came last, not first.

May & June 2026 were our 2nd and 3rd best months ever. Eleven months in, we're accelerating — not slowing down.

If you're launching something new in the field — play the long game. It pays.

Thank you, Chandpur & Lakshmipur — for letting us in.
Next stop: the next 1,500.
